- Why is it important for me to register my child now?
 - Students will be scheduled to take a Kindergarten readiness assessment prior to the start of the 2021-2022 school year. If your child is not registered for Kindergarten, then the assessment cannot be scheduled. In addition, by knowing how many Kindergarten students to expect, we can staff accordingly,

and principals can begin putting class lists together for the coming school year. Students who are not registered are not included on those initial class lists.

- What kind of assessment will my child take?
 - Each child will be assessed using a Kindergarten readiness assessment. Parents will schedule an appointment for the assessment by school personnel when they enroll their child. This assessment will be administered by a certified teacher at each child's school. The assessment will take about 20 minutes. Parents will not sit with their child during the assessment. Parents will not receive a performance report. The purpose of the assessment is to assist with classroom placement.

- Kindergarten Entrance
 - The Indiana General Assembly amended I.C. 20-43-4-5 establishes a statewide entrance eligibility date for public school Kindergarten and stipulates a student residing in Indiana be at least five (5) years of age on or before October 1st in order to enroll in public school Kindergarten.

- Are there any exceptions for a child who is not five by October 1?
 - There is no appeal process for families requesting early entrance for a student who will be less than five years of age on or before October 1st. HEA 1001 (2019)
