

Helping you get the right care – at the right place, at the right time

Taking care of your health is stressful enough. Minding the cost is yet another burden. That's why we have AIM Specialty Health® to provide programs that can help you get quality care while keeping your costs down. This allows you to focus more on your health and less on figuring things out.

What AIM programs can do for you:

- Find lower-cost options with high-quality care for common procedures
- Let you compare prices for specific procedures, like sleep studies, MRIs and arthroscopy
- Encourage you to find doctors in your plan, which can help you save money
- Help you get care at the right place, based on your needs
- Find out if there's evidence a treatment you're told to have is medically necessary

Your goal is our goal: quality care at affordable costs

We offer tools to help you make more informed decisions about care that's right for you. And better choices can mean better value. To learn more about your benefits and ways we can help you, visit [anthem.com](https://www.anthem.com).
