COVID-19 STUDENT GUIDELINES

POSITIVE COVID-19 TEST

- If your student tests positive for COVID, he/she should isolate for five (5) days from the onset of symptoms, per the CDC.
- The first day of symptoms is Day 0. The student can return to school on Day 6 as long as he/she is fever-free for 24 hours <u>without</u> the use of medication. It is highly recommended to have the student wear a mask for Days 6-10 while in school.
- For the absence to be excused, a student will need to provide a doctor's note, as with all other illnesses. We are no longer accepting pictures of positive tests as documents for excused absences.
